

Facility-Specific Reports for OP-32, OP-35 and OP-36

The Centers for Medicare & Medicaid Services (CMS) is providing facilities with a Facility-Specific Report (FSR) with information on the following three measures for calendar year (CY) 2022 payment determination:

- OP-32: Facility 7-Day Risk-Standardized Hospital Visit Rate after Outpatient Colonoscopy measure (**Colonoscopy measure**)
- OP-35: Admissions and Emergency Department (ED) Visits for Patients Receiving Outpatient Chemotherapy measure (**Chemotherapy measure**)
- OP-36: Hospital Visits after Hospital Outpatient (HOPD) Surgery measure (**HOPD surgery measure**)

The FSR is a Microsoft Excel file that contains measure performance results, national results, detailed patient-level data used to calculate measure results, and a summary of each facility's case mix.

For CY 2022 payment determination, the measures' performance periods have been shortened to exclude data from January – June 2020 in accordance with Centers for Medicare & Medicaid Services' (CMS') [March 22, 2020 announcement](#). As a result, the FSR is based on claims for procedures that occurred during the following reporting periods:

Measure	Reporting Period
Colonoscopy Measure (OP-32)	January 1, 2018 – December 24, 2019 & July 1, 2020 – December 31, 2020
Chemotherapy Measure (OP-35)	July 1, 2020 – December 31, 2020
HOPD Surgery Measure (OP-36)	July 1, 2020 – December 31, 2020

The FSR provides facilities with an opportunity to review their results prior to CMS publicly reporting the measure in early 2022. CMS encourages facilities to thoroughly review their FSR and accompanying User Guide.

Detailed information about the measures is available on *QualityNet*:

Accessing Your Facility-Specific Report

Please note the FSR is available for download through a Managed File Transfer (MFT) account.

Registered users who have Managed File Transfer (MFT) basic user access and have been granted the “Auto-Route (OQR)” permission by their organization’s Security Administrator/Official (SA/O) will receive an Auto Route File Delivery Notification email indicating that the FSR is available. FSRs will be accessible by logging into the [MFT Dashboard](#) and entering your HCQIS Access Role and Profile (HARP) username and password. From there, click on Mail in the left-hand navigation pane and locate your FSR in the Inbox folder.

Please contact the Security Administrator/Official for your organization to confirm that you have been assigned the proper permissions to receive your FSR.

Note: FSRs will be available in your MFT mailbox for a thirty (30) day period.

Facilities must first obtain a HARP ID and register for a HARP account by visiting the [HARP ID Help Page](#). Once facilities establish a HARP account, log into HARP and request a User Role for either Security Officer (SO) or Web User. If facilities have problems accessing their FSRs, they should contact the QualityNet Help Desk at qnetsupport@hcqis.org.

Facilities that already have a HARP ID can register for a HARP account by visiting the *HARP Help Page* (<https://harp.cms.gov/login/help>) and selecting the “How do I create a HARP account?” FAQ under HARP Registration, or by contacting the QualityNet Help Desk at qnetsupport@hcqis.org.

Other Notes

- Your facility will not receive a FSR if:
 - Your facility was not open during the FSR reporting period;
 - Your facility did not have any eligible cases for the measures during the FSR reporting period; and/or
 - Your facility did not have a HARP and MFT account with the appropriate designated roles.
- Please refer to the Claims-Based Measure Lookup Tool to identify if your facility has a FSR bundle available for download. The lookup tool can be found at:
<https://www.qualityreportingcenter.com/en/hospital-oqr-program/data-dashboard/lookup-tools/>
- A mock FSR with simulated facility-specific data is available on *QualityNet* at:
 - **Colonoscopy Measure (OP-32):** <https://qualitynet.cms.gov>Hospitals – Outpatient>Measures>Colonoscopy Measure>Learn more>Reports>
 - **Chemotherapy Measure (OP-35):** <https://qualitynet.cms.gov>Hospitals – Outpatient>Measures >Chemotherapy Measure>Learn more>Reports>

- **HOPD Surgery Measure (OP-36):** <https://qualitynet.cms.gov>Hospitals – Outpatient>Measures>Surgery Measure>Learn more>Reports>
- The FSR will also be accompanied by a User Guide which will help facilities interpret the information in the FSR.
- **Please do not respond directly to this email; this email box is not monitored.** Facilities may submit questions and comments via the QualityNet Question and Answer Tool: https://cmsqualitysupport.servicenowservices.com/qnet_qa

Do NOT submit patient-identifiable information (such as Date of Birth, Social Security Number, Health Insurance Claim Number, Dates, or other identifying information) in your correspondence. Sending screenshots and/or describing a patient listed in your FSR is considered Protected Health Information (PHI) under the Health Insurance Portability and Accountability Act (HIPAA).
