We are excited to announce our Keynote Speaker

Redesigning and Retooling for Healthcare Reform

Eric Wallace, MD, FASN

Dr. Wallace is a Professor of Medicine in the Division of Nephrology at the University of Alabama at Birmingham. He is the UAB Medical Director of Telehealth, Co-Director of the UAB Home Dialysis Program, and Director of the Rare Genetic Kidney Disease Clinic. Since becoming faculty, he has sought to eliminate geographic and socioeconomic barriers which prevent patients from accessing specialized care. He has overseen the creation and scaling of ambulatory and inpatient telehealth programs, E-Consults, tele-ICU, and remote patient monitoring. He is focused on using these tools to help re-design healthcare.

Target Audience: Physicians, Nurses, Socialworkers, Counselors, Psychologists, Administrators

The Missouri Telehealth Summit brings together leaders, policymakers, providers and payers for in-depth conversations around telehealth.

The 2023 summit will focus on sustainable telehealth integration, value-based care models, training the workforce, remote patient monitoring and more.

Pre-Summit Workshop will focus on in-depth detail around telehealth AIMS (adoption, implementation, monitoring, and sustainability).
