

AFRAID YOU MAY HAVE THE CORONAVIRUS?

CALL IF YOU HAVE:

Fever, cough or difficulty breathing.

Been in close contact with a person known to have COVID-19.

Recently traveled from an area with ongoing spread of COVID-19.

Your health care provider will work with public health to determine if you need to be tested. If you think you may have been exposed to COVID-19, call your health care provider before going to a provider's office, emergency department or urgent care.

PATIENT VISITORS

will be limited to

NO MORE THAN

IN A PATIENT AREA,

INCLUDING

LABOR AND DELIVERY UNITS.

**Friends and family members
visiting patients
hospitalized at**

are now limited to

per patient at a time.

**This applies to all patients being cared
for in every unit of our hospital.**

Visitors will be restricted if they exhibit any flu-like signs or symptoms.

Any family member or visitor with a travel history within the last 14 days to mainland China, South Korea, Iran, Italy or other areas outlined by the CDC is not allowed to enter the hospital.

**Any patient who is
presumed to have or
is being treated for
COVID-19 will be
limited to**

Community service and support group activities will be evaluated on a case-by-case basis to ensure the safety of patients, volunteers and staff.

HOSPITAL VISITOR POLICY

All visitors must check in at a visitor information desk.

No visitors under age 18 are allowed unless they are the parent of a child in the hospital.

Only one adult visitor per patient is allowed in all areas of the hospital.

Visitors may be screened for flu-like symptoms (runny nose, fever and cough) and will not be allowed to visit if symptoms are present.

Visitors with international travel may not visit for **14 DAYS after arrival in the U.S.**

We appreciate that this may be an inconvenience for patients and families. However, we made this decision in the best interest of our patients.

**THIS ENTRANCE
IS CLOSED**

HOW TO PROTECT YOURSELF AND OTHERS FROM INFECTION

PRACTICE SOCIAL DISTANCING.

Maintain at least a six-foot distance between yourself and others, especially anyone who is coughing or sneezing.

COUGH OR SNEEZE IN YOUR ELBOW OR IN A TISSUE, NOT YOUR HAND.

Dispose of the used tissue immediately in a closed bin, and wash your hands with soap and water.

AVOID TOUCHING YOUR EYES, NOSE AND MOUTH

without washing your hands first.

STAY HOME WHEN YOU ARE SICK

except to get medical care.

CLEAN AND DISINFECT FREQUENTLY TOUCHED OBJECTS AND SURFACES.

WASH YOUR HANDS OFTEN WITH SOAP AND WATER FOR AT LEAST 20 SECONDS.
