AIM
for EXCELLENCE

The Missouri Hospital Association is again pleased to announce the Aim for Excellence Award – an annual, prestigious award recognizing Missouri hospitals' innovation and outcomes. The award will recognize achievement, disseminate successful models, motivate innovation, promote publication and support application to nationally based grants and awards. Awards will be presented at MHA's 97th Annual Convention & Trade Show.

The award recognizes up to six member organization- or team-based projects that address at least two of the three Triple Aim principles based on the following categories.

CATEGORIES (maximum of one application per hospital facility)

- critical access and rural hospitals
- small and large metropolitan statistical area hospitals
- care collaborative or health care system

For the purpose of this award, a collaborative includes at least one hospital or health system and one non-hospital provider group or organization, under different ownership and management structure, working together to address all three principles of the Triple Aim. This category will not distinguish between rural and metropolitan statistical areas.

2019 CALL FOR APPLICATIONS

ELIGIBILITY

- project-based applications designating a team or organization
- limit of one application per hospital facility
- intervention must have been implemented for at least one year and have evidence of results
- hospital-based applications must address at least two of the three Triple Aim principles; awards for the comprehensive care model or health system must address all three principles

APPLICATION GUIDELINES

All [applications](#) must be submitted on the application template. No other form of application will be accepted. The application template is a Word document to allow entrants to expand and condense sections under required headings. The application must be single spaced. JUDGING

Each eligible application will be judged and scored by a team of external Missouri partners, including funders, academics, health-related centers and health-related organizations. Judging criteria will include the following.

- **Executive Summary** — A one-page project summary outlining: 1) project description; 2) goal; 3) improvement strategy; 4) results and 5) lessons learned.
- **Triple Aim** — Alignment with at least one principle of the Triple Aim (population, quality, cost/value)
 - **Bonus Points** (at the discretion of each judge) –
Provide evidence of all three principles incorporated into the initiative and results
- **National Academy of Medicine STEEEP Aims** — Alignment with at least one STEEEP aim – safe, timely, effective, efficient, equitable, patient-centered
- **Problem Statement** — Problem statement clearly must identify and support, with data, an opportunity for improvement
- **Project Goal** — Project goal clearly must state a measurable improvement
- **Strategy** — Strategy and interventions must be based on scholarly evidence
- **Data Source** — Current, complete, accurate, appropriate, recognized source of data
- **Engagement** — External partner and leadership engagement
- **Results** — Data-driven outcomes
- **Sustainability** — Plan for sustainability and replication/spread
- **Lessons Learned** — Strategy to improve

Applications referencing name, organization and/or location will result in disqualification. Please closely review all documents, charts and graphs.

SCORING

The top application in each category must receive a minimum average total score of 75/100 to receive the award. If no applications in a particular category receive at least 75 points, no awards will be given in that category.
