# Evidence-Based Nicotine Treatment Strategies

 **Thursday, May 18, 2023**

 **Noon - 1:00 pm CST**

 **REGISTER HERE!**

(pre-registration required)

*Presented by the Behavioral Health & Wellness Program  
Department of Psychiatry, University of Colorado Anschutz Medical Campus*

Welcome to the *Missouri Tobacco Health Systems Change Behavioral Health Community of Practice (CoP)* webinar series. In the first webinar of this series, we will review evidence-based strategies for treating Tobacco Use Disorder (TUD). The majority of persons with behavioral health conditions who smoke are motivated to quit. TUD treatment is a standard of care, and behavioral health organizations are well-positioned to integrate proven Medication Assisted Treatment strategies into their existing workflows. This webinar will present an overview of co-treatment of polysubstance use utilizing FDA-approved medications and behavioral therapies.

## **Webinar Objectives:**

- » Provide the rationale for and purpose of utilizing evidence-based nicotine treatment strategies.
- » Describe the effectiveness of co-treatment approach.
- » Examine the behavioral health therapies and FDA-approved medications for treating Tobacco Use Disorder.

*The CoP is offered by the Missouri Department of Health and Senior Services in partnership with the Missouri Department of Mental Health (DMH) and the Missouri Behavioral Health Council (MBHC).*
