

FEMA

FREE TRAINING

FEMA P-767, *Earthquake Mitigation for Hospitals*

FEMA NETAP Web-Based Training

Training Description

In this web-based training, participants are introduced to earthquake hazards in health care settings and learn about methods that can be used to analyze and reduce risks of damage in hospitals and other medical buildings. Such facilities have unique nonstructural components, including equipment and infrastructure systems that can become sources of injury or damage even during smaller earthquakes. By implementing sound, cost-effective mitigation measures, health care facilities can reduce seismic risks and ensure that, in the event of an earthquake, they can remain in operation to serve their communities.

Target Audience

Hospital facilities managers, engineers, administrators, and other hospital personnel.

General Information

- Date & Time:** Thursday, May 18, 10am-2:30pm Central / 11am-3:30pm Eastern (includes 30 min break for lunch)
- Location:** Online
- Register at:** https://us02web.zoom.us/webinar/register/WN_aApJsXk8Rm2cooyzuMeNPA
- Instructor:** Michael Griffin, President, CCS Group, Inc.
- Note:** This training is supported by the National Earthquake Hazards Reduction Program (NEHRP) National Earthquake Technical Assistance Program (NETAP). For more information visit: <https://www.fema.gov/emergency-managers/risk-management/earthquake/training/netap>. Contact Chiara McKenney at netap@atcouncil.org with questions.
- Accessibility:** Automatic closed captioning will be provided. To request 508-compliant slides, contact Chiara McKenney at netap@atcouncil.org at least two weeks before the training.
- Materials:** <https://cloud.atcouncil.org/s/ZKd9X5f3i9FoifM>
