

Installing MSXML

Please follow the step-by-step instructions below for installing MSXML 4.0 on your system to access the Quality Works Program.

Note: *If you are unable download and install programs on your system, please reach out to your internal IT department for assistance with this installation.*

1. Open [this file](#) to access MSXML.
2. Scroll down and click Download.
3. Click the checkbox for the msxml.msi option. Click Next.
4. When the download bar appears at the bottom of your screen, click Run.
5. You will be prompted with the MSXML installation process. Click Next.
6. Once you've read the End-User License Agreement, select "I accept the terms in the License Agreement," and then click Next.
7. Type your User Name and Organization. Click Next.
8. Click Install Now.
9. The installation process may take several minutes. Once complete, click Finish to exit the Setup Wizard.
