

## Thursday, November 2, 2023

---

1 - 1:30 p.m.

MO-ACHE Business Meeting and Awards Presentation

1:30-3 p.m.

### **MO-ACHE Face-to-Face Education – “The State of Health Care: Industry Leader Perspectives”**

A variety of health care and public health policy and legislative issues impact health care organizations and require leadership to adapt and respond. These issues often relate to improving population health, access and coverage through Medicaid and other programs; enhancing value; addressing consumer issues and workforce shortages; and more. Learning about these issues and engaging in policy and organizational responses is important for health care leaders, regardless of how directly they may be involved. Topics discussed during this session will include population health, value-based payment, state and community health status and indicators, technology and innovation, mergers and acquisitions, Affordable Care Act/individual mandate, Medicare and Medicaid for All, and quality and patient satisfaction.
