

SHOW-ME ECHO

(Extension for Community Healthcare Outcomes)

KIDNEY DISEASE Prediction, Prevention, Protection

EMPOWERING CARE TEAMS TO IMPROVE UNDERSTANDING, AWARENESS AND ENGAGEMENT

ECHO uses videoconferencing to connect an interdisciplinary team of experts with primary care providers. They collaborate in interactive case-based learning sessions to help primary care providers develop advanced skills and best practices. The Kidney Disease ECHO will help primary care providers improve:

- Chronic kidney disease (CKD) detection.
- Co-management of CKD with diabetes and hypertension through best practices.
- Understanding of cardiovascular morbidity and mortality.
- Management of complex CKD patients.

READY TO JOIN?
Visit showmeecho.org

HOW DOES IT WORK?

Participants will join an interactive online video conference twice per month. They will share and discuss clinical cases related to such topics as: diagnosis, prediction and prevention of cardiovascular risk; diabetes management; non-pharmaceutical treatment of hypertension; medication management of CKD; low sodium diets; empowering patients through self-management; management of edema and anemia; co-management of CKD patients; and when to refer to a nephrologist.

WHAT DOES THIS ECHO OFFER?

- No cost continuing education for health care professionals
- Collaboration, support and ongoing learning with specialist physicians and other experts
- Patients get better care in their community
- No cost to participating sites or individuals

Missouri Telehealth Network
University of Missouri

TOPICS FOR CASE-BASED LEARNING AND DISCUSSION:

- Evaluating CKD in Primary Care
- COVID-19 and Kidneys
- Cardiac Risks of CKD
- Health and Racial Disparities
- Hypertension and CKD
- Diabetes and CKD
- Food as Medicine
- Diabetic Kidney Disease and the New HEDIS Measure
- Reliable Resources for CKD Providers and Patients
- Medication Management of CKD
- Understanding and Treating PKD in Primary Care
- Effectively Treating AKI and Slowing Progression of CKD
- Motivating CKD Patients
- Basics About Dialysis and Transplant for Primary Care
- When to Refer and How to Coordinate Care with Nephrology
- Diet and Nutrition Resources for CKD
- Hypertension: Best Practices for Effective BP Monitoring
- Managing and Modifying Cardiac Risks
- ‘Everything on the Table’ Discussion

WHAT IS SHOW-ME ECHO?

Show-Me ECHO at the University of Missouri is designated as an international SuperHub, meaning the founding ECHO program at the University of New Mexico has certified MU to train organizations that want to adopt the ECHO model. In addition to kidney disease, MU offers more than 25 other ECHOS on a wide range of health issues. Show-Me ECHO participants come from more than 90 counties and 780 organizations in Missouri.

MEET OUR TEAM

Walter Bender, MD
Nephrologist
Golden Valley
Memorial Hospital
