

## \$183 Million available via Pharmaceutical Benefit Plan Class Action Settlements

NEXT DEADLINE  
SEPT. 1, 2020

### SETTLEMENT CATEGORY OVERVIEW

There are typically several active lawsuits and/or class action settlements that fall into the category of “pharmaceutical benefit plan settlements.” Under these cases, it is generally alleged that businesses with self-insured health plans overpaid for drugs purchased on behalf of their employees due to artificially inflated and/or stabilized prices.

The prices were allegedly manipulated as a result of anti-competitive practices undertaken by the drug manufacturers. The number of these opportunities in any given year varies, but there can be several available at the same time.

### RECOMMENDED NEXT STEPS

Data is often required to complete your claim for settlements in this category. Connect us with a member of your Benefits Department (and Pharmacy for hospital clients) so an MCAG representative can describe the information that is necessary to complete your claim for these pharmaceutical settlements. We typically only need a 5 to 10 minute call.

We will quickly review the process so we can efficiently obtain necessary information from your Pharmacy Benefit Manager (i.e. CVS Caremark, Express Scripts, OptumRX) to pursue current and future pharmaceutical settlements.
