CMS Posts Final FY 2024 Hospice Wage Index and Payment Rate Update

The Centers for Medicare & Medicaid Services (CMS) have issued its final rule updating the hospice payment rates, wage index and aggregate cap amount for Fiscal Year (FY) 2024.

The rule also discusses updates to the Hospice Quality Reporting Program (HQRP) and the further development of the Hospice Outcomes and Patient Evaluation (HOPE) tool with national beta test analyses; and discusses updates on Health Equity and future quality measures (QMs). It also provides updates on the Consumer Assessment of Healthcare Providers and Systems (CAHPS), Hospice Survey Mode Experiment.

In addition, the rule finalizes provider enrollment requirements for certifying physicians for hospice services, and also finalizes text changes to regulations that align with the expiration of the COVID-19 public health emergency (PHE).

A copy of the 101-page rule is at: <https://public-inspection.federalregister.gov/2023-16116.pdf>. Publication is scheduled for August 2, and, of course, this link will change upon publication.

Comment

CMS estimates that the aggregate impact of the payment provisions in this rule will result in an estimated increase of \$780 million in payments to hospices, resulting from a hospice payment update percentage of 3.1%. The proposed increase was \$720 million.

As required by OMB, CMS provides the following table to explain the changes in overall payments to hospices.

Category	Transfers
Annualized Monetized Transfers	\$780 million
From Whom to Whom?	Federal Government to Medicare Hospices
Category	Costs
Annualized Monetized Costs Associated with Changes in APU Reductions due to Data Submission Requirements	\$41.2 million

Since the final rule contains no table of contents, we are inserting relative page numbers from the rule's display version.

PROVISIONS OF THE RULE

FY 2024 Hospice Wage Index and Rate Update (Page 16)

The final hospice wage index is based on the FY 2024 hospital pre-floor, pre-reclassified wage index for hospital cost reporting periods beginning on or after October 1, 2019 and before October 1, 2020 (FY 2020 cost report data). The final FY 2024 hospice wage index does not take into account any geographic reclassification of hospitals, including those in accordance with section 1886(d)(8)(B) or 1886(d)(10) of the Act.

The final hospice wage index applicable for FY 2024 (October 1, 2023 through September 30, 2024) is available on the CMS website at: <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/Hospice/Hospice-Wage-Index.html>.

The wage index value to the labor portion of the hospice payment rate is based on the geographic area in which the beneficiary resides when receiving routine home care (RHC) or continuous home care (CHC) and the geographic location of the facility for beneficiaries receiving general inpatient care (GIP) or inpatient respite care (IRC).

The hospice floor adjusts pre-floor, pre-reclassified hospital wage index values below 0.8 by a 15 percent increase subject to a maximum wage index value of 0.8.

FY 2024 Hospice Payment Update Percentage (Page 23)

Based on IHS Global Inc.'s (IGI) second quarter 2023 forecast with historical data through the first quarter of 2023, the inpatient hospital market basket percentage increase for FY 2024 is 3.3 percent. The forecast of the productivity adjustment for FY 2024 for this final rule, based on IGI's second quarter 2023 forecast, is 0.2 percent. Therefore, the hospice payment update percentage for FY 2024, based on more recent data, is **3.1 percent**. The proposed update was 2.8 percent.

Hospice Cap Amount for FY 2024 (Page 35)

The hospice cap amount for the FY 2024 cap year is **\$33,494.01** which is equal to the FY 2023 cap amount (\$32,486.92) updated by the FY 2024 hospice payment update percentage of 3.1 percent.

CMS now says it plans to provide additional information regarding HOPE testing results on the HQRP website in the fall of 2023.

CAHPS Hospice Survey Updates (Page 52)

Potential measure changes will be submitted to the Measures Under Consideration (MUC) process in 2023 and may be proposed in future rulemaking. CMS did not propose any changes for FY 2024.

Hospice Certifying Physician Enrollment (Page 62)

CMS will require physicians who order or certify hospice services for Medicare beneficiaries (hereafter occasionally referenced as “hospice physicians”) to be enrolled in or validly opted-out of Medicare as a prerequisite for the payment of the hospice service in question. This provision will be effective May 1, 2024.

Final Thought

While this is a relatively short rule, nonetheless, organizations should review the material in-depth to insure full understanding of items being presented.

The hospice certifying provision consumes some 20 pages.
